Ex.No:9 Design a Simple Topology and Configure One router, Two switches and PCs Using Cisco Packet Tracer.

Aim

To design and configure a simple network topology consisting of one router, two switches and four PCs using Cisco Packet Tracer, and verify communication between all devices.

Procedure:

→ Open Cisco Packet tracer
→ Add devices from new network devices
→ Connect the devices using Copper Straight-Through cable
→ Open Router CLI
→ Configure interface G0/0 by
→ Save router configuration
→ Configure PC0 by IP configuration.
→ Configure PC1
→ Configure PC2 & PC3
→ Test Connectivity by clicking Desktop & CMD.

Result

Thus, we configured and designed a simple network topology consisting of one router, two switches and four PCs using Cisco Packet Tracer and verify communication between all devices.
